

Nature Collage

A fun activity that is perfect for summer or fall. Make an ordinary walk rememberable with this tactile activity!

1. Supplies

The best part about this activity is that all you need is a piece of paper, some tape, and scissors!

2. Take a walk

Take your kids outside and start walking! Try to point out things that could collect and put on their paper

3. Collage

Once the kids have walked and collected all they have wanted, pick a nice spot and get to taping the items to the paper. Remember this is supposed to be fun, challenge the kids to make shapes or even face out of what they have!

4. Done!

Once all items have been taped to the paper, you and your kids will have a lovely nature collage to remember your walk together
