

# HOW TO MAKE Tissue-Stained Glass

THIS IS AN EASY AND FUN CRAFTS FOR KIDS AND ADULTS ALIKE!

## SUPPLIES

- Wax paper
- Colored tissue paper
- Watered-down glue
- Scissors
- Craft Sticks
- Paint brush

## STEP 1

First, cut (or tear) tissue paper into small squares or other geometric shapes. Once the pieces are cut, brush glue onto the wax paper.

## STEP 2

Set a piece of tissue paper on the glue-covered piece of wax paper, then brush more glue over the piece. Continue adding layers of glue and colored tissue paper until your wax paper is covered with beautiful tissue paper.

## STEP 3

Once your stained glass is completely dry, you can either tape it directly to a sunny window, or glue craft sticks together to make a frame for your suncatcher!
