4. Scroll down the page to “III. CIVIL RIGHTS Reports” and click “More...”

5. Run each report individually according to Civil Rights audience.

If you are pulling reports for a county office, all of the column options will create the same report.

If you are pulling for multiple units, depending on how you want the report formatted, use one of the first two column options. The third combines all the units’ data together into one summary report.

NOTE: Pull and save/print each report one at a time, AIMS opens each new report in the same window.
